

## Hauler Information

The growing popularity of products offered by the Landscape Recycling Center sometimes results in a delivery backlog during peak times. For this reason, LRC is providing our customers with contact information for contractors who can deliver LRC products. Additional contractors/haulers may be found in the yellow pages or online. The Landscape Recycling Center, its agents and employees, make no guarantee of the services of these contractors and assume no liability for any damages they may cause to persons or property. Arranging for delivery services of LRC products with anyone besides the Landscape Recycling Center is the sole responsibility of the customer.
